

Dot Letters

These dot letters are provided in upper and lower case pairs – and can be used for a wide range of purposes.

You can print them on paper and students can trace them with markers or paint, dot them with cotton tips or bingo dabbers. Or they can put stickers or small counters along the letters.

You can also laminate them and use them as mats. The laminated versions can be used as a template for making Playdough letters or Kinetic sand letters.

I hope you find them useful!!

Have fun with letters and sounds!

Jane
