

Outline Letters

These outline letters are provided in upper and lower case - and can be used for a wide range of purposes.

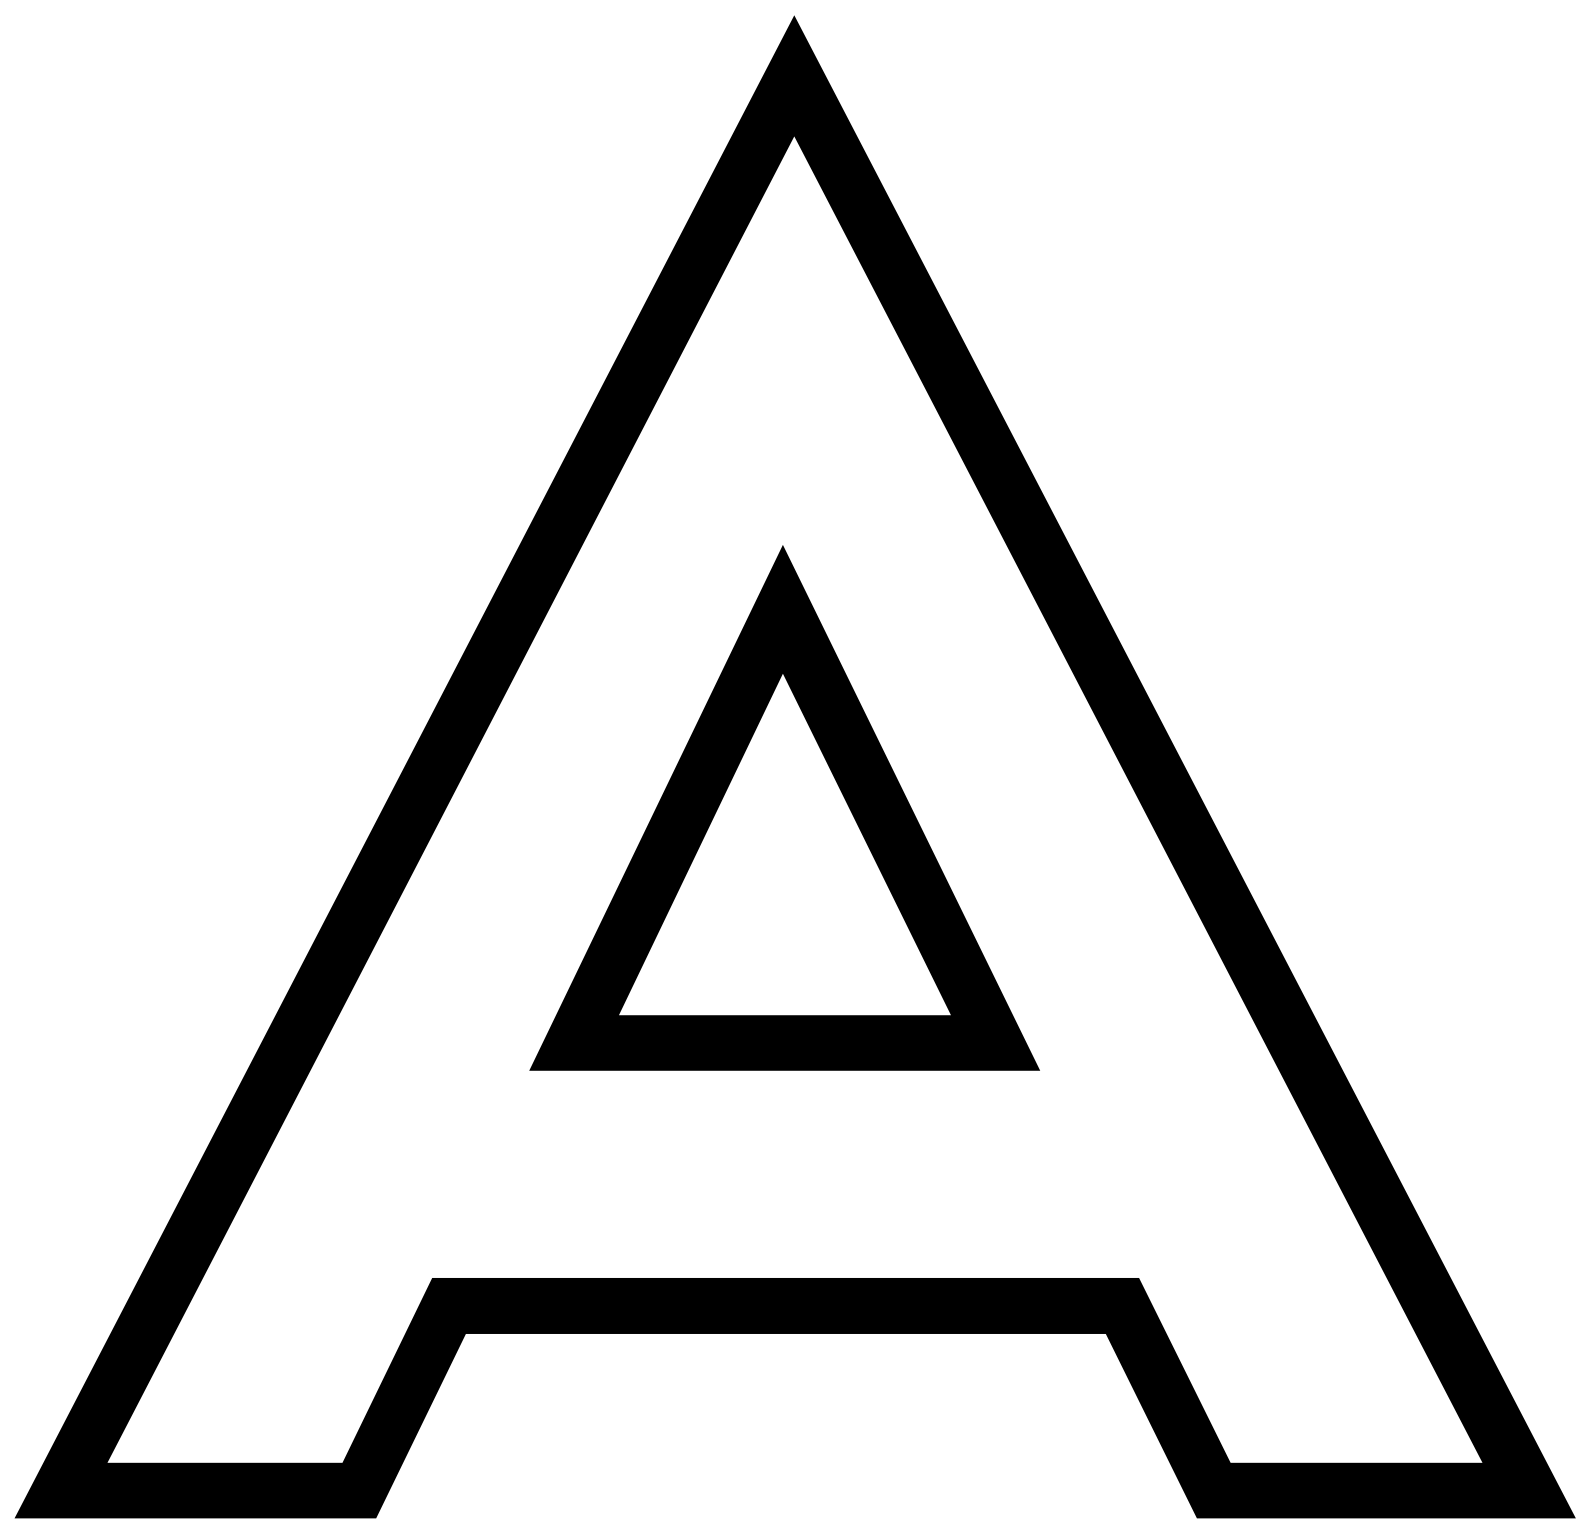

You can print them on paper and use them for a range of craft activities. You can paint them - and then cut them out again at the end. You can stick stickers all over them or stamp them - or any other craft that you can invent!

You can also laminate them and use them as mats. The laminated versions can be used as a template for making Playdough letters or for driving toy cars around.

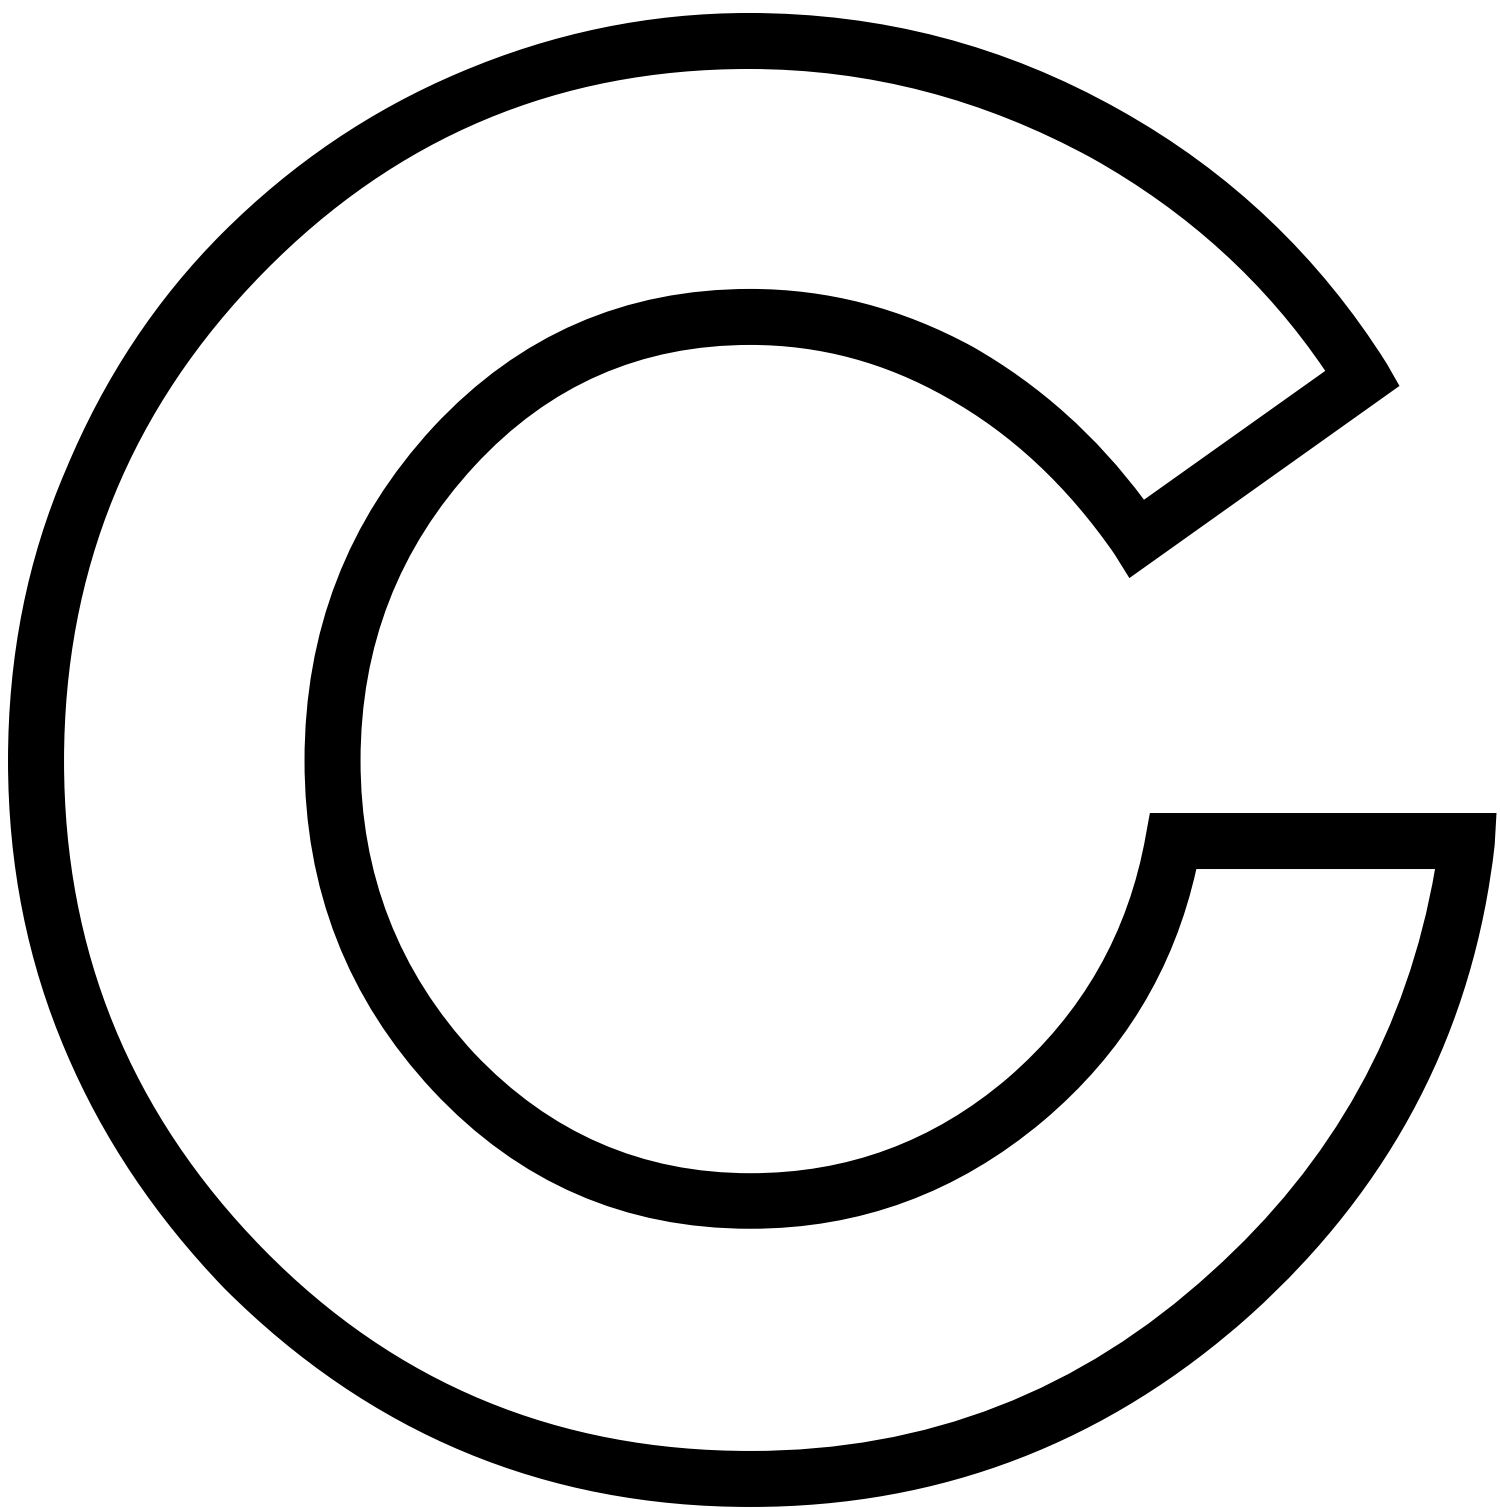

I hope you find them useful!!

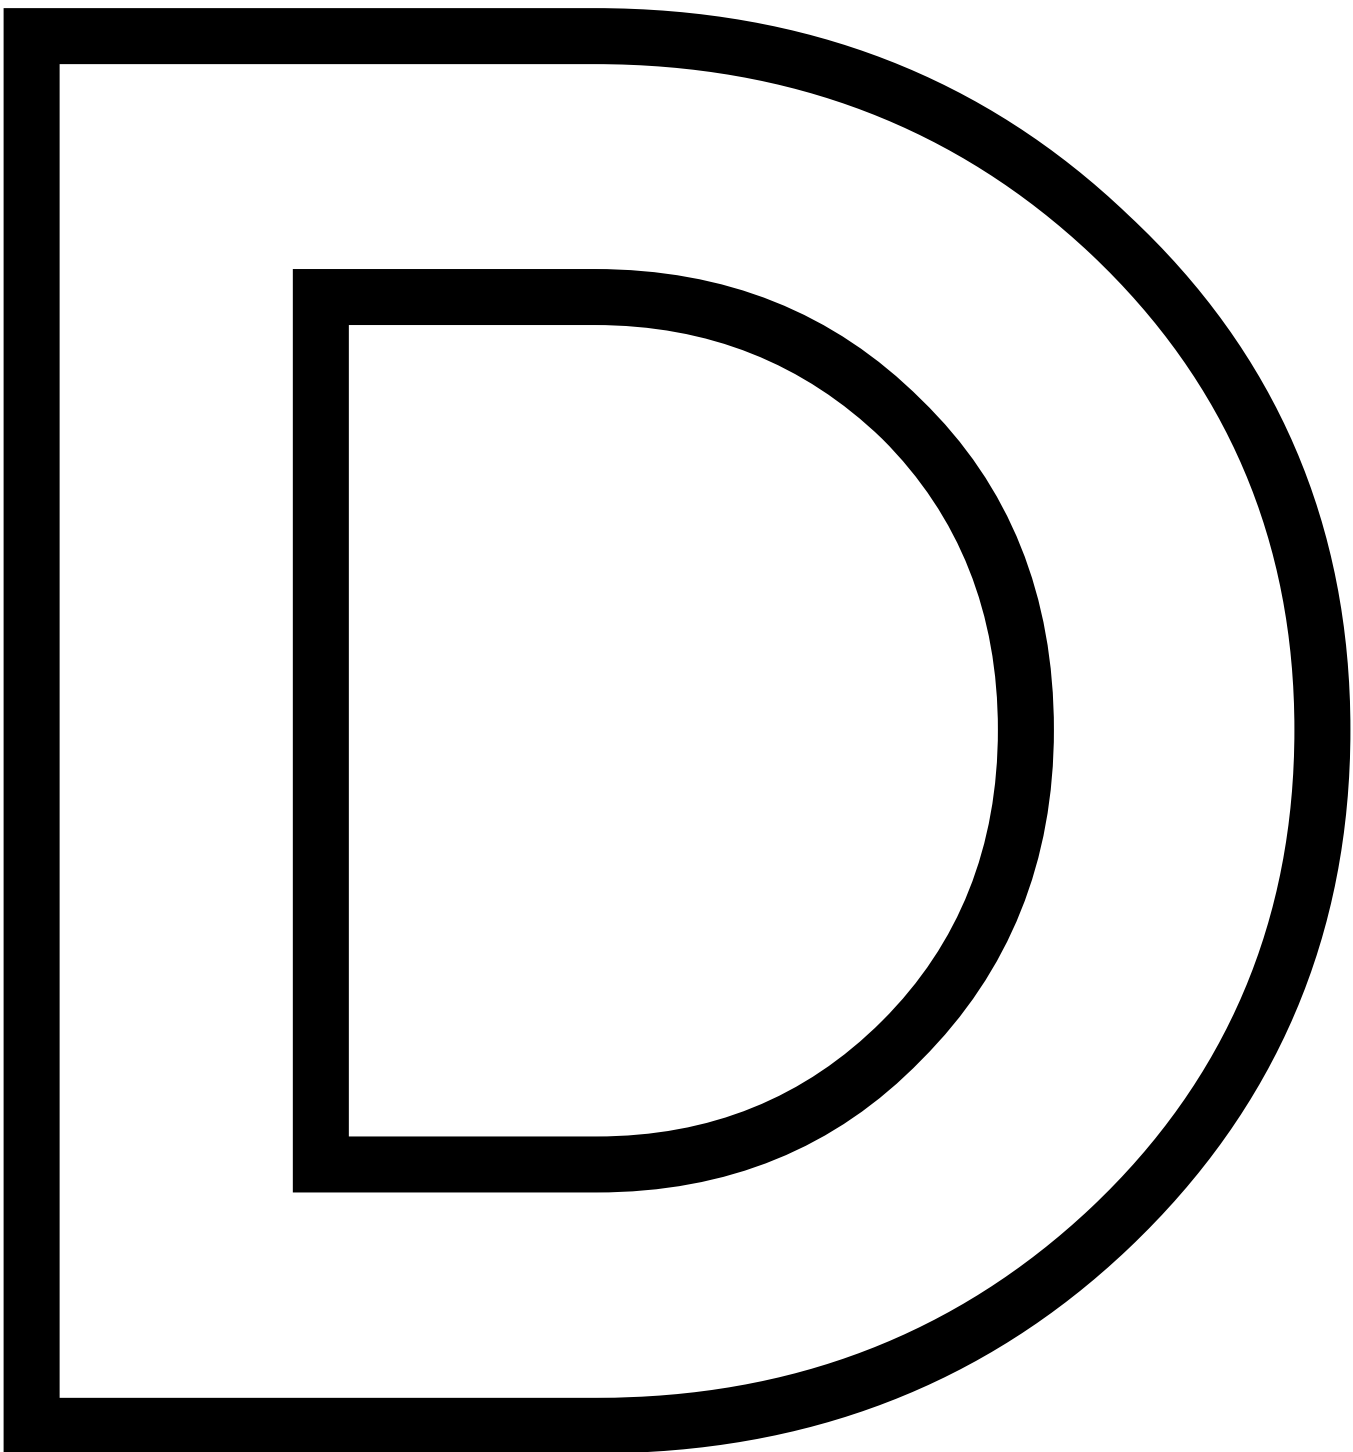

Have fun with letters and sounds!
